

What is AmeriCorps?

It is an opportunity to make a difference in your life and the lives of those around you. It is a one year commitment to national service that will put your skills and ideals to work helping others. Rural Action AmeriCorps members serve in watershed groups in Appalachian Ohio. Your service will protect and restore the fragile ecosystems that are key to the health of the region.

Time Frame

All members will complete 1700 hours of service during their year of service. The AmeriCorps term runs from August to the end of July the following year.

AmeriCorps service opportunities are offered without regard to race, color, national origin, disability, gender, sexual orientation, religion, political affiliation or other non-merit factors.
